

DEDICATED PROFESSIONAL RESOURCES

Chip Early of Dedicated Professional Resources comes with twenty years of experience in the nonprofit sector.

Creating a great environment for your team to thrive in is only done well when done with intentionality. It is easy to get busy with our day-to-day responsibilities and let those intentions land on the back burner. I bring expertise in team building, recruiting volunteers, employee relations, conflict resolution, designing great onboarding experiences, creating healthy cultures, collaborating across departments, training, and development of managers. In working with Organizational Leaders in these areas we can help reduce risk to the Church/Nonprofit/Parachurch ministry you lead.
